DETAILED ACTION

Rejection Repeated

1. The 35 U.S.C. 102(b) rejection over claims 1,3,5,7,9,11,13,15 anticipated by Oi et al. has been repeated for the reasons previously made in paper 3/16/2004.

Response to Arguments

2. Applicant's arguments filed 6/16/2004 have been fully considered but they are not persuasive.

In response to applicant's argument that the copolymer disclosed by EP '976 does not include ethylene, EP '976 discloses on page 3 lines 28-29, 'the copolymer of the present invention is a copolymer of an alpha-olefin with an alkenyl aromatic hydrocarbon wherein the copolymer has a structure in which tertiary carbon atoms are mutually separated by two successive methylene groups (*in other words, an ethylene group*) in the backbone of the copolymer'.

In response to applicant's argument that EP'976 does not disclose that copolymer comprises an alpha olefin that includes ethylene, the alpha olefin that EP'976 discloses is a vinylcyclohexane which is the vinyl compound that applicant claimed. The ethylene desired by the applicant is found in the backbone of the copolymer structure wherein the ethylene separates the tertiary carbon atoms. Therefore, the alpha olefin of the copolymer does not have to include an ethylene.

In response to applicant's argument that although EP'976 discloses that the alpha olefin includes vinylcyclohexane, EP'976 still fails to disclose a

Application/Control Number: 09/972,879

Art Unit: 1772

combination of ethylene with the vinyl compound recited in claim 1, such as vinylcyclohexane, applicant states in the argument on page 4 paragraph 2 that vinylcyclohexane is the combination of ethylene and the vinyl compound therefore, since EP'976 discloses that the alpha olefin includes vinylcyclohexane then EP'976 does not fail to disclose a combination of ethylene with the vinyl compound recited in claim 1. However, if applicant meant to argue that EP'976 fail to disclose a combination of ethylene and a vinyl compound, wherein the vinyl compound is vinylcyclohexane, EP'976 discloses that the copolymer is of an alpha-olefin with an alkenyl aromatic hydrocarbon wherein the copolymer has a structure in which tertiary carbon atoms are mutually separated by two successive methylene groups (*in other words, an ethylene group*) in the backbone of the copolymer', wherein the alpha olefin can comprise vinylcyclohexane (page 3 line 34).

Thus, in the absence of any evidence to the contrary, it remains the Examiner's position that the claimed invention is anticipated obvious over the prior art of record discussed above.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory

Art Unit: 1772

period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jane Rhee whose telephone number is 571-272-1499. The examiner can normally be reached on M-F 9-6.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Harold Pyon can be reached on 571-272-1498. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-
